Profile

Experienced React developer with a solid track record of almost 3 years in the industry. Proficient in creating robust and scalable web applications, leveraging React's component-based architecture, state management, and ecosystem of tools and libraries. Strong problem-solving skills and a keen eye for UI/UX, ensuring the delivery of high-quality and user-friendly applications.

Employment History

SDE-1, ReBid, Mumbai

FEBRUARY 2023 — JULY 2023

- Developed **real-time alert mechanism** for displaying dynamic notifications.
- Enhanced **robustness** of the existing analytics system with multiple graphs to **minimize failure rates** and **improve overall reliability.**
- Revamped **existing page** in React to prioritize **user-friendliness**, resulting in a more intuitive and engaging user experience.
- Quickly **acquired proficiency in Backbone.js** and promptly began delivering feature and bug fixes leveraging the framework's capabilities.
- Effectively **translated Figma designs** into interactive **React or Backbone.js pages**, ensuring pixel-perfect implementation and maintaining design fidelity throughout the development process.
- Developed **highly reusable and modular components** in React, promoting code reusability, scalability, and efficient development practices
- Collaborated on the development and enhancement of the **Buy and Console products** contributing to their functionality, usability, and overall user experience.

Associate System Engineer, IBM

JANUARY 2021 — OCTOBER 2022

- Played a pivotal role in a major **React migration project** for **HSBC Bank** within IBM, taking charge of various responsibilities.
- Spearheaded the development of **highly responsive and visually appealing user interface** components, seamlessly **translating designs and wireframes** into top-notch code using **JavaScript**.
- Ensured code quality and reliability by writing comprehensive **unit test cases** for React components.
- Leveraged the power of React to establish seamless **API integration, documenting details such as API specifications, error scenarios, and business logic,** while optimizing performance across devices and browsers.
- Demonstrated a commitment by building an **accessible application,** catering to the needs of differently-abled users.
- Demonstrated proficiency in **creating reusable components** as needed and actively participated in **code reviews**, contributing to the **overall quality and collaboration** of the project.

Education

Bachelors of Computer Engineering, A.P. Shah Institute Of Technology, Thane

AUGUST 2016 — OCTOBER 2020
